Hi-jacking

To The Editor—Seems like Fidel Castro stays in the news by hook or crook. And from the daily papers' angle, mostly crook. But are these true reports?

The state department, the FBI and the CIA have been out to get Castro from the start. The latest incident is the plane hi-jacking.

Now why should Castro commit this crime? Was he the originator of same? Or was it a retaliatory measure for something the CIA did to Cuba? But why should the CIA steal the Cuban plane? So they could send some bearded pilot in the hi-jacked plane on a bombing trip over Florida, or maybe over our naval base in Cuba?

Cuba would then apparently be guilty of attacking the U.S. and we could go down and demolish Cuba and Castro. Such is the dirty nasty tactics of the U.S.

EDITOR'S NOTE: Whoa! Better read again the facts on the plane hi-jacking! The press reports are true. What about all the American property Castro has confiscated? The provocation you spoke of already exists.
